

Agreement for Quality Assurance

between

Renner Bt.
Kiserdő tanya 78
6440 Janoshalma
HU

(Hereinafter referred to as the supplier)

and

Kubo Tech AG
Im Langhag 5
8307 Effretikon

A. Scope

This agreement rules the measures for the quality assurance for the collaboration between the supplier and Kubo Tech AG.

It aims to guarantee the supply of the required quality at minimized costs. Another objective is that no more technical testing at goods receiving department of Kubo Tech AG is necessary. The incoming inspection will be restricted to checking of quantity, accuracy of the consignment and damages occurred during transportation.

This is an important prerequisite for a successful collaboration in terms of profitability and quality assurance.

B. Applicability / Quantity Tolerances / Inspection Sheets

1) Products

This quality assurance agreement is valid for all products listed in Appendix 1.

2) Quantity tolerances

Short shipments shall not be accepted. An over delivery of max. 5% of the order quantity is accepted.

3) Inspection Sheets

The inspection sheets are archived at the supplier's premises for 10 years.
Copies of the test reports are generally included.

C. Authorized contacts

The following departments are authorized to settle all quality assurance matters (prevention of defects, analyse of problems, means and methods of inspection):

Supplier:

Kubo Tech AG: Quality management

For all other matters (pricing, delivery terms, transportation etc.) the following department are involved:

Supplier:

Kubo Tech AG: Head Strategic Purchasing

D. Further applicable documents

The following documents are an integral part of this agreement for quality assurance. The first priority is given to the present agreement, second priority to the document under point 1, point 2 etc.

1. Formular Technical Terms and Conditions of Delivery (TTC) – current version
2. Mitgeltende Unterlagen
3. Mitgeltende Unterlagen
4. Mitgeltende Unterlagen

E. Conformities

All points mentioned in paragraph B must fulfil the following conformities (exceptions have to be clearly marked)

- RoHS as per 2002/95/EC and WEEE 2002/96/EC
- REACH as per 1907/2006/EC

F. Stock keeping

The warehousing of our products must be determined in such a way as to preclude any improper handling, such as damage, overstepping of the warehousing capacities and other quality impairments. Products and / or transport containers must be marked in such a way that they can be clearly identified and any mix-ups / mixes excluded.

In the case of a special storage provision, this is listed under point D. Further applicable documents.

G. Validity

This agreement on quality assurance has been mutually agreed upon by the supplier and Kubo Tech AG and is - including the documents mentioned under paragraph D – binding for both parts.

This agreement shall be applicable as long as the products listed in paragraph B will be purchased from the supplier.
